MEMORANDUM FOR FILE

SUBJECT:

Telephone Conversation with

25X1A

[REDACTED] - Baird Associates, Inc.
Cambridge, Massachusetts - Project

25X1A

25X1A

1. Call was made to Dr. [REDACTED] this date to verify his requirements for certain GFE equipment on subject project, as follows:

a. Sextant:

1. Original request for a D-1 sextant is still valid.

Dr. Billings would also like to have, in addition, a D-2 sextant.

[REDACTED] is working on this requirement and hopes to have available by Tuesday, 15 November, a D-1 sextant that Mr. Bissell can take with him to the meeting in Cambridge on 16 November. As yet, [REDACTED] has not been able to identify the D-2 sextant but is working on obtaining this item also at the earliest possible date.

25X1A

2. Northrup bubble - [REDACTED] states he feels they have identified this item and that it is called a "manometer" and have issued a procurement request for two of the items.

[REDACTED] states he does not know it by that designation. He states it is an "electric level," a vertical determinator, and gave the following sources thru which a check could be made:
